

Dear colleagues,

The University of Banja Luka will host the 15th multidisciplinary international scientific academic meeting "Students Encountering Science–StES 2022" in November 2022. StES is an opportunity for students from around the world to present their scientific achievements and it will take place in Banja Luka between 17 and 19 November 2022.

It is our pleasure to invite you to participate and give you an opportunity to present your scientific papers. You can apply if you are an undergraduate, master or doctoral student or a young researcher (under 30).

"Students Encountering Science" is the leading multidisciplinary students' scientific academic meeting, organized by the Students' Parliament of the University of Banja Luka. The aim of StES is to present students' scientific achievements and the possibility of their practical application, as well as to determine the course of further research. StES is an opportunity to improve students' scientific research, promote academic spirit, exchange opinions, and make new friends.
